

AMENDMENTS TO THE CLAIMS

1. (Original) Composition comprising, in combination:
 - (a) at least one marrow oil, and
 - (b) at least one borage oil.
2. (Original) Composition according to Claim 1, characterized in that it also comprises at least one compound chosen from a nettle extract (c) and a soybean extract (d).
3. (Original) Composition according to Claim 1 or 2, characterized in that the marrow oil (a) is an oil extracted from marrow pips and/or the borage oil (b) is an oil extracted from borage seeds.
4. (Previously Presented) Composition according to Claim 1, characterized in that the nettle extract (c) is an extract of nettle roots, advantageously in powder form.
5. (Previously Presented) Composition according to Claim 1, characterized in that the soybean extract (d) is soybean lecithin or an isoflavone-rich extract, advantageously in powder form.
6. (Previously Presented) Composition according to Claim 1, characterized in that the marrow oil (a) is present in a concentration of between 20% and 40% and advantageously between 25% and 35% by weight relative to the total weight of the composition.

7. (Previously Presented) Composition according to Claim 1, characterized in that the borage oil (b) is present in a concentration of between 10% and 30% and advantageously between 15% and 30% by weight relative to the total weight of the composition.

8. (Previously Presented) Composition according to Claim 1, characterized in that the nettle extract (c) is present in a concentration of between 0 and 60% and advantageously between 35% and 55% by weight relative to the total weight of the composition.

9. (Previously Presented) Composition according to Claim 1, characterized in that the soybean extract (d) is present in a concentration of between 0 and 10% and advantageously between 0 and 5% by weight relative to the total weight of the composition.

10. (Previously Presented) Composition according to Claim 1, characterized in that the composition is formulated for oral administration.

11. (Original) Composition according to Claim 10, characterized in that the composition is in the form of a wafer capsule, a gel capsule, a tablet, a granule, a chewing paste, a gum, an oil or an oily jelly.

12. (Original) Composition according to Claim 10, characterized in that the composition is a food composition or a food supplement.

13. (Previously Presented) Composition according to Claim 1, characterized in that the composition is formulated for topical or rectal administration.

14. (Previously Presented) Composition according to Claim 4, characterized in that it can be obtained according to the process comprising the maceration of the nettle powder (c) in a mixture of marrow oil (a) and borage oil (b), to which soybean lecithin is optionally added.

15. (Currently amended) A medicinal product, a dermatological agent, a dermocosmetic agent, or a nutraceutical agent comprising the composition according to Claim 1.
~~Composition according to Claim 1, for its use as a medicinal product, as a dermatological or dermocosmetic agent, or as a nutraceutical agent.~~

16. (Currently Amended) a method for preventing or treating alopecia, acne, hirsutism, seborrhoea, or body odor, comprising administering the composition according to Claim 1.
~~Composition according to Claim 15, for its use in the prevention or treatment of alopecia, acne, hirsutism, seborrhoea or body odour.~~
